January 2021 Monthly Bulletin - News and Updates

COVID-19 Research Just PUBLISHED!

A special message from Susan Ryan
Senior Director of The Green House Project

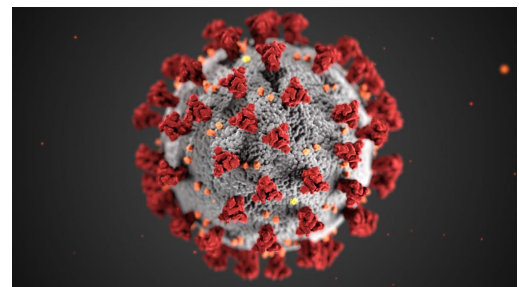

Dear Green House Partners,

It is with heartfelt appreciation that I first acknowledge your heroism during this ongoing crisis. You have provided stability and security during turbulence and courage amid chaos and uncertainty. Elders and their families are comforted by your unwavering commitment to the important work you do each day.

I'm especially grateful for your willingness to share your data through the monthly COVID data collection.

*It is that 'story' that is being told through research that was recently published in **JAMDA, the Journal of Post-Acute and Long-Term Care Medicine**, marking a significant milestone in recognition and awareness of the Green House model.*

Together we will 'Go Beyond Better' to shape the future of long-term care!

DEVELOPMENT NEWS The first Green House Project in Louisiana has launched!

The Green House Project team is excited to share the inclusion of Poydras Home in the Green House Community. Poydras Home will be building 3 trademarked Green House Homes and 3 homes that serve 14 elders each that are infused with the Green House core values. Poydras Home brings the first Green House Homes in Louisiana. The homes will be built in the heart of New Orleans.

We are very proud of the incredible body of long-term care thought leadership that our podcast, Elevate Eldercare, has produced over the last seven months. Guests from all corners of the aging services have taken time to sit down with host Susan Ryan each week to offer their insights and analysis on the state of eldercare today, what it could look like in the future, and what can be done to improve it.

You can find each of the 54 episodes in an easily accessible format on our website!
