

LEADING EMPOWERED CULTURES

Accredited by the International Authority for Coaching and Mentoring

Built upon the 40+ years' experience of The Green House Project and Pioneer Network, Leading Empowered Cultures is a course designed for residential care leaders.

This course explores leadership's key role in fostering collaboration for a person-directed living and worker-empowered culture. The experiential learning environment includes the development of a coaching skillset and mindset coupled with identifying key organizational strategies to create and sustain an empowered culture.
